

TOTALITY

The Eclipse Dinner

A unique wine and gastronomy experience beneath a total solar eclipse
12th August 2026 · Ferrer Bobet Winery, Priorat, Spain

An experience that can only be lived once.

On 12th August 2026, the sky will offer us one of the most extraordinary natural phenomena we can witness.

For a few unforgettable minutes, daylight will give way to darkness. The light will fade. Time itself will seem to stand still. Some moments cannot be explained. They can only be experienced.

TOTALITY was created to celebrate this unique moment in one of Spain's most extraordinary landscapes: the Priorat. An experience where wine, gastronomy, nature and knowledge come together to remind us of something essential: **when the world pauses, so can we.**

When nature sets the rhythm

Ferrer Bobet Winery will be much more than a venue. Surrounded by vineyards, stone and silence, we will experience the eclipse in a place where land and time have been in harmony for centuries.

Guests will enjoy an intimate visit to the winery with **Raül Bobet**, discover his wines and share an evening created to celebrate one of nature's most extraordinary spectacles. Every glass of wine, every conversation and every glance towards the sky will become part of the same story.

The Evening

6:00 pm Welcome at **Ferrer Bobet Winery** with a glass of wine. An intimate winery visit followed by a cocktail-style aperitif featuring seasonal local produce.

8:29 pm A guided total solar eclipse experience led by a science communicator.

As daylight fades, so too will everything that usually distracts us.

Only nature, the sky and the present moment will remain.

As the light returns, guests will enjoy an exclusive cocktail-style gastronomic experience created by Michelin-starred chef **Rafel Muria**, perfectly paired with a carefully curated selection of Ferrer Bobet wines chosen especially for this occasion.

Ambient music and, if the skies are clear, the **Perseid meteor shower** will bring an unforgettable close to a night destined to remain in our memories.

What the evening includes

- An intimate visit to **Ferrer Bobet Winery**, more like a conversation than a traditional tour.
- Certified eclipse viewing glasses.
- A cocktail-style aperitif featuring seasonal local produce.
- A guided eclipse experience led by a science communicator.
- An exclusive cocktail-style gastronomic experience created by **Michelin-starred chef Rafel Muria**.
- An exceptional selection of Ferrer Bobet wines, specially chosen for the occasion.
- Ambient music.

An experience with purpose

Taking part in **TOTALITY** is also an act of generosity.

All proceeds from the evening will be donated to the Priorat Red Cross, because some experiences leave a lasting impact far beyond those who live them. When the light fades... we remember what truly matters.

That time is a gift.

That sharing is a privilege.

That nature still has the power to leave us speechless.

And that some moments are so extraordinary they stay with us forever.

TOTALITY

It is more than an eclipse. It is an invitation to pause, look up at the sky and become part of something far greater than ourselves.
