

Wine Tourism

Herència Altés Winery

Gandesa, Terra Alta

1/ Herència Altés Winery

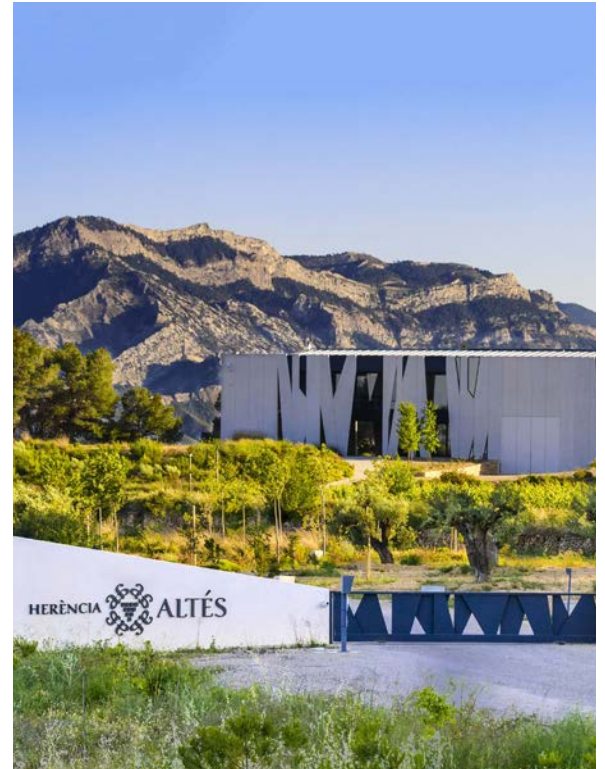

Herència Altés is a family-run winery in Terra Alta dedicated to crafting fresh, elegant wines rooted in the region's character. We are committed to organic farming and to a way of working that is sustainable, respectful of the environment, and that promotes rich biodiversity.

We preserve **old vines** and work with native varieties, especially the Grenache, highlighting **White Grenache**, the emblem of our land.

In this dossier, we will give you an overview of our proposals and tailored activities –including capacities and square meters suitable for events, meetings, team-building and unique experiences in Terra Alta.

Starting summer 2025, we welcomed **La Xalamera**, our new wine bar and gastronomic space.

Our **organic wines** are born from a deep love for Terra Alta and the commitment to protect it. You'll also find insight into our environmental projects and a cultural look at the region's heritage.

Núria Altés and Rafael De Haan

Núria Altés was born in Batea (Terra Alta) into the latest generation of a family which has worked with and taken care of their winemaking heritage over the years and passed their love for the land on to her.

Rafael De Haan, was born in Kent (England) to an English father and Spanish mother. His passion for wine led him to discover the Terra Alta region and much more – a family and life project.

2/ Wine Tourism

We invite you to visit our winery at the foot of Coll del Moro (Gandesa, Terra Alta).

A modern building equipped with cutting-edge winemaking technology, surrounded by a traditional **agricultural landscape** shaped by small vineyard plots and framed by the imposing Ports de Beseit mountains.

A unique setting to experience the true **taste of our territory**.

Groups can be attended to in **English, Catalan, Spanish, French, German, and Danish**.

2.1/ Experiences

Discovering Herència Altés

Walk among vineyards planted with old Garnatxa Blanca vines and discover our environmental project and the Terra Alta landscape, before entering the winery building to see us at work and try 4 of our wines.

Length: about 1:30 hours | €23.00/person

Wine Lovers visit

Immerse yourself in our project and discover the different grape varieties we grow and the identity aspects of Herència Altés while you walk among the vineyards. We will reveal the secrets of authentic winemaking and finish with a tasting of the 4 Single Vineyard wines, the most emblematic of the winery.

Length: about 2 hours | €38.00/person

Picnic in the vineyards

Come and discover our environmental project and have a picnic in between vineyards, enjoying the scenery close up. Follow the signposted itinerary, observe the natural and cultural heritage that surrounds us, and enjoy a picnic with majestic view!

Duration: free | €25.00/person

2.2/ Activities

Garnatxa Blanca's Rhythm

A harmony of our Grenache wines accompanied by typical culinary details and stories from the Terra Alta. We place White Grenache at the center and allow ourselves to be surprised by its contrasts.

The Landscape of Grenache

A distinctive feature of this region is its commitment to Grenache varieties: red, white, and hairy. We'll taste plot wines and single-vineyard wines. The tasting culminates with a small cheese tasting surrounded by the most characteristic landscape of Terra Alta to harmonize the evening.

Harmony of painting, landscape and wines

Art and wine intertwine in this activity, where we travel back to the origins of matter to express, in a primitive way, what the Terra Alta landscape conveys, inspires, and moves us.

In this experience, we'll create our own pigments, paint, and taste the winery's most unique wines. An activity to be enjoyed by everyone from the youngest to the oldest.

Picasso and the Wine

A harmony between the surrounding landscape, art, Picasso, and wine. Elements that connect with the history of Terra Alta and invite us to experience firsthand the creation of a Cubist-inspired mosaic.

We paint the landscape that inspired the young Picasso.

An activity to be enjoyed by everyone from the youngest to the oldest.

2.3/ Shop and tasting area

Our shop offers the full range of Herència Altés wines and a cozy space to taste them and take home a piece of Terra Alta.

Opening hours: Monday–Friday, 9h–17h. Weekends by reservation.

3/ La Xalamera - Wine bar

La Xalamera is our enogastronomic space, a unique spot to enjoy wine, gastronomy, and the landscape of Terra Alta.

Enjoy a glass of wine accompanied by small dishes created in collaboration with Teòric Taverna Gastronòmica (Barcelona) and chef Oriol Casals.

Reservations +34 670 58 41 38.

3.1/ Philosophy of La Xalamera

La Xalamera celebrates local, organic cuisine rooted in Terra Alta's traditions and landscapes. Every dish is designed in dialogue with our wines, seeking natural harmony between wine and food.

A curated offering of local cheeses, cured meats, preserves, anchovies, traditional Catalan bites, clotxa, seasonal product, and pairings tailored to our wines.

It's a space where time slows down – a place of history, simplicity, and respect for the territory, inviting our guests to savour every moment.

3.2/ Wine and gastronomy

4/ Wines – Organic Winemaking

Our winemaking philosophy is based on minimum intervention, dry-farming resilience, and environmental respect. We promote biodiversity through soil work, biological pest control, ecological practices, and preservation of traditional elements like dry-stone walls.

Herència Altés aims to go beyond winemaking—the vineyard becomes a protector of biodiversity, landscapes, and cultural heritage.

4.2/ White Grenache

White Grenache is the emblem of Terra Alta. A variety that reflects the **essence** of our **landscape** and plays a central role in our Wine Tourism project.

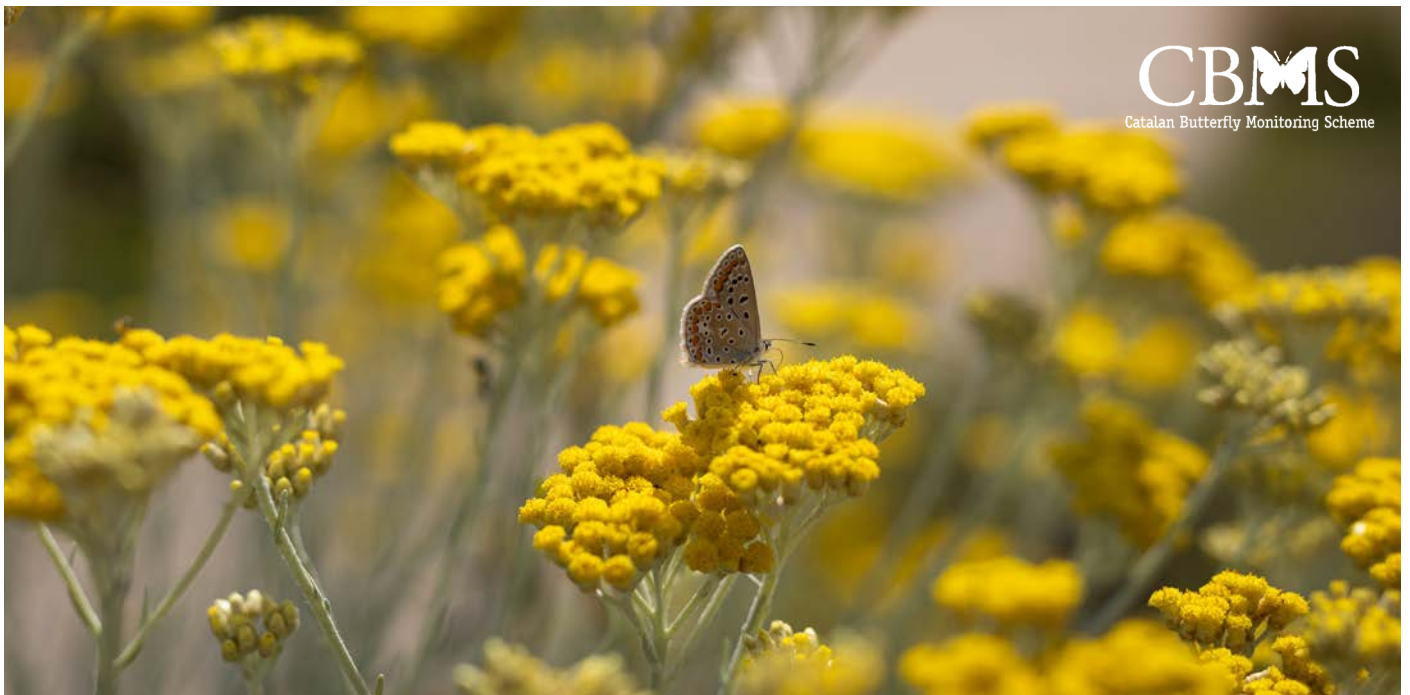

As the region leading DO Terra Alta –and representing **33% of world production**– White Grenache stands as an international reference point.

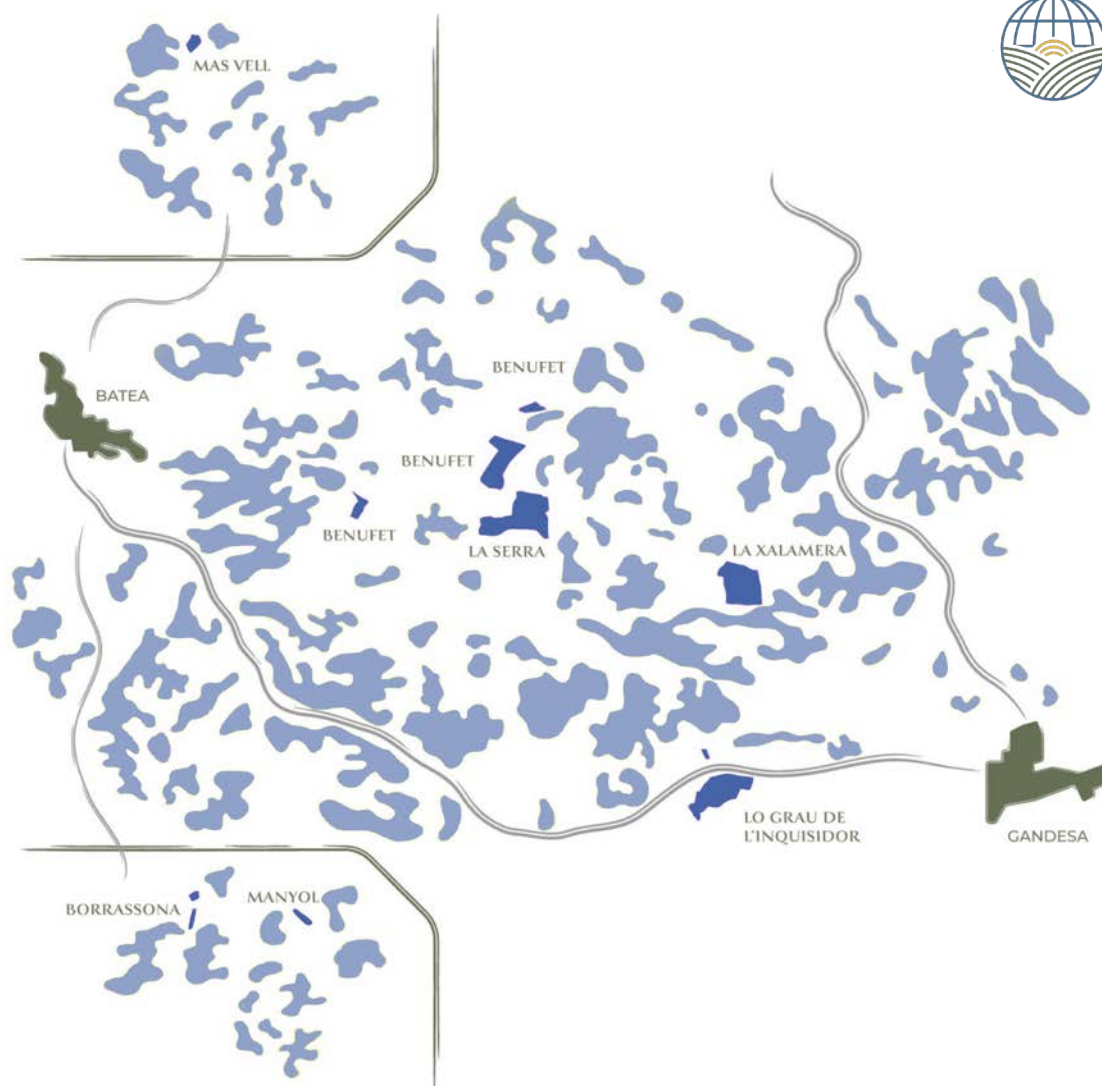

5/ Environmental Project

Our sustainable winery promotes biodiversity through comprehensive monitoring, flora inventories, the conservation and restoration of dry-stone walls, and the creation of natural habitats.

We implement CBMS programs for monitoring **butterflies** and have also carried out bird “**hacking**” projects, introducing and nurturing birds of prey to naturally restore the ecological balance within the vineyards.

5.1/ Map of the Vineyards

Iconic vineyards

La Serra

Old vines full of character.
